**Cable Prep Work**

Brian Boal asked me to stay in the office today.

☐

I spent the day doing office work, including:

- Searched PMIV & read recent Cable submittals & RFIs.
- Filled out hauling & installation checklists for recent work at the Tower saddle.
- Prepared for Cable compaction field work (updated compaction checklist to incorporate suggested changes from other Cable group members, organized binders for filing compaction checklists, etc).
- I went to Grainger hardware supply to purchase a metric steel measuring tape for use in measuring Cable diameter during the upcoming Cable compaction operation.
- Other misc work (vehicle mileage log, timesheet, checking email, etc).
